

TO ALL OPERATING PERSONNEL

Measures to combat and contain the spread of the Covid-19 virus

- TRADE FAIR DISTRICT -

please remember:

- 1. the obligation to remain at home if you have a temperature (over 37.5°) or other flu symptoms, and to call your family doctor and the health authorities;
- 2. awareness and the acceptance of the fact that access is subject to the checking of body temperature for the sole purpose of the prevention of the spread of COVID-19;
- 3. awareness and the acceptance of the fact of being unable to enter or remain in the trade fair district area and of having to promptly declare even subsequent to entry in the event of the occurrence of dangerous factors (flu symptoms, a temperature, arrival from areas of risk or contact with persons positive to the virus in the previous 14 days, etc.), in which case the trade fair authorities instruct personnel to inform their family doctor and the Health Authorities, and to remain at home;
- 4. the commitment to promptly and responsibly inform the Healthcare Facility of the presence of any flu symptoms arising after entry to the district, taking care to remain at a suitable distance from the persons present;
- 5. the obligation to request a check-up by the occupational health physician if you intend to enter after infection from SARS-CoV-2 which has required hospital admission;
- 6. the commitment to comply with all the provisions of the trade fair authorities and the organiser of the Event in accessing the district (in particular, to maintain a safety distance when entering/exiting and in shared areas, to comply with the hand hygiene regulations and to adopt correct behaviour regarding hygiene in general);
- 7. the commitment to comply with the anti-contagion measures drawn up by the organiser, in particular: cleaning and disinfecting of equipment and workstations under your responsibility before and after use, of all surfaces subject to contact, keyboards, mouse devices, screens, etc.; frequent cleaning and disinfecting of hands using the cleansing products made available by the organiser, to be used every time access is made to the toilets; use of a facemask in the areas inside the district.

How to wear a surgical mask

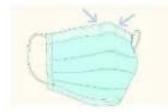

Instructions to follow regarding how to put on and take off the mask are given below:

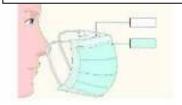

- Before putting on the mask, wash your hands carefully with soap and water or with an alcoholbased solution;
- Put on the facemask making sure that it adheres well to the face, covering the mouth and nose;
- Fasten the mask behind the ears/head with the relative loops, ties or bands, tightening them if necessary;
- Avoid touching the mask while wearing it; if you touch it, wash your hands;
- Carefully wash your hands before removing the mask;
- Remove the mask with caution, holding it by the loops or ties or bands or by the interior part without touching the front part, and discard it immediately in a closed bag;
- Dispose of the closed bag into the unsorted waste bin;
- Wash your hands carefully.

PUTTING ON THE MASK

- 1. Wash your hands carefully
- 2. Put the mask the right way up
- 3. Make sure that the correct side of the mask is facing outwards

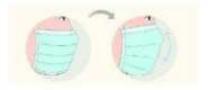

- 4. Fasten/tie the mask behind the ears/head

5. Position the mask over the nose and under the chin

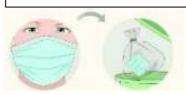

REMOVING THE MASK

 Wash your hands carefully

Remove the mask with caution and discard it in a closed bag into the unsorted waste bin
