CLEANING ENVIRONMENTS

Rooms and other environments frequented by **confirmed cases of Covid-19**:

- Sanitisation as indicated in the “Technical indications for cleaning activities, disinfection and sanitisation in relation to the risk of SARS CoV-2” issued by the regional Collective Prevention and Public Health Department.

Linen, curtains and other fabrics:

- Must undergo a washing cycle with water at 90° C and detergent. If it is not possible to wash at 90° C due to the characteristics of the fabric, the washing cycle must be carried out with bleach or sodium hypochlorite-based products.

PERSONS WHO HAVE BEEN IN CONTACT WITH A COVID-19 CASE

The healthcare personnel assessing the case need to trace the close contacts of the person infected and may impose quarantine isolation and surveillance measures for those concerned. The organiser undertakes to encourage **maximum collaboration in this phase**. Company management, with the agreement of the health authorities, shall evaluate the possibility and means of informing people not directly involved.
